Subject: Pristine, Inc. Superfund Site -- Additional PFAS-related Information

Hi Steve,

Attached please find a memorandum from Judy Canova to me, dated November 6, 2019, which provides the PFAS-related information that we discussed in our call on October 24th. If you have any questions, please give me a call. If the Trustees have questions of a technical nature regarding the request for 1,4-dioxane sampling (the subject of the ICP) or the request for PFAS sampling, they should feel free to contact Judy.

Thanks,
Jim
